Washington, May 20.—Efforts to escape registration for military service under the selective conscription law by trips to Canada or any other country will not succeed. The Canadan Government is to cooperate with the United States in closing the border to defeat the purposes of alackers. It is likely that similar regulations will be made effective relative to attempts to leave by ship to foreign ports or to Maxico.

The fact that such regulations have been made with Canada became known when inquiry was made relative to the return of munitions workers of Riverside, N. J., following the refusal of Canadan officials to permit their entrance. It was announced that the border would be closed until the United States Government has completed its registration, the date of which is June 5.
